

Kindergarten Full Day Scholarship Criteria

Early intervention in literacy development enhances a child's performance later in school and directs his/her future towards success. Beginners in reading must be given many chances to practice fluency skills, and exposure to adequate vocabulary and word interpretation techniques. There are five (5) elements of reading; phonological awareness, alphabetic principle, fluency, vocabulary knowledge, and text comprehension strategies that are important for a reader to achieve, and without these, the reader will fall behind. (Gyovai, Cartledge, Kourea, Yurick and Gibson, 2013).

Based on the above listed factors, we have established criteria for All Kindergarten Scholarships.
