

Board Agenda Notes - 10/22/2018

Item 2- Work Session-

Topic- All Day Kindergarten Discussion

This is the only thing we have for the work session. And it should not be an hour discussion. **Would you like to push your Executive session to the front of the meeting? Please advise.**

Item 3- Recognitions and Presentations-

We have several students that are being recognized. National Merit Semi-finalists and Commended students, Future Medical leaders, more band awards. In addition, Kelly Lazar will be presenting CAPA's end of year report.

Item 8- Other Board Business-

- A. This is the resolution to enter into agreement with Shook Construction for our building project. They will be in attendance at the meeting to be formally introduced to you and the District. David Riley will also be there to answer any questions you may have about the resolution and the "next steps".
- B. This is the FIRST reading on updated policies. There will be no Board action on this item. Please review the policies and let me know if you have questions.

Item 9- Superintendent Announcements-

A group of our students, along with our Orchestra Teachers, produced the sound byte for a local documentary. It is truly amazing. We will play a portion of it during this time.

Item 10 Superintendent Consent Agenda-

- A. Certified- One retirement effective June 30, 2019
- B. Classified- You will see the termination of the bus driver AS WELL AS his recommendation for hire. He started on Sept. 20 and had not been Board approved at our last meeting so you will be voting on his recommendation and then his termination all in one action.
- C. Supplementals - Most of the Winter season recommendations

Item 11- Other Superintendent Business-

- A. School Resource Officer MOU with Broadview Heights - HB318 (school safety bill) states that all school districts that have an SRO officer, must execute a MOU that outlines the roles and responsibilities of the SRO officer. Our Attorney drafted this MOU. It was then edited by Broadview Heights and reviewed by their legal counsel. We had it reviewed a second time and now it is up for your approval. It is very generic and top level. This law goes into effect on November 2, 2018. When we open the new building, Brecksville will use the same MOU for the SRO officer that will be fulltime at the elementary school.
- B. Complimentary passes- this is a yearly action needed since we give out complimentary passes to our events.
- C. Settlement agreements- These are for two individual students, in lieu of going through due process. Both were settled with our attorney present at mediation.

- D. NEOESC Tuition agreement- for one student attending the Achievement center
- E. F, G, H - All out of State field trips for our sports teams and 8th grade trip to DC.
- I. Approval to run an after school bus to World Elite for Elementary tumbling program.
We did this last year as well.
- J. This is our annual membership fee that pays for our inclusion in the North east Ohio Crisis team. This is the group that pulls together when districts are facing a student or a staff death.
- K. Donations of vision kits and library books to the district and Chippewa respectfully.
