

Board Update

Ohio School Board Association Transportation Studies

Several preliminary bell schedules have been developed and shared with Ohio School Board Association (OSBA) transportation specialist, Pete Japikse. As Pete and his team work to support the impact on closing Central School to transportation operations and provide technical support to explore our bell schedule OSBA will be taking a two pronged approach. For the upcoming April 3rd meeting Pete will be presenting phase one of the study to include:

1. The closure of Central School and the estimated routing impact to move these students to Middle School routes and Elementary School routes.
2. Review the estimated need for additional buses to accommodate the additional students on Middle School and Elementary School routing tiers.
3. Forecast the economic impact of eliminating the Central School routes and addition of Middle School and Elementary School routing tiers.
4. Review traffic patterns at the High School and Middle School.

Phase two of the OSBA transportation study will begin May 1st and provide a comprehensive review and evaluation of our transportation logistics and fleet needs as the school district addresses future building reconfiguration plans.

As expressed by Mr. Coad during the March work session presentation, the key to our flexibility to improve or change our current transportation service will be our ability to recruit and employ bus drivers.

School Bus Driver Substitute Wage

As previously communicated there is a state-wide shortage of skilled school bus drivers. The shortage of bus drivers impacts our ability to meet our operating needs on a daily basis, has the potential of limiting our ability to fulfill desired adjustments in school bell schedules and could limit future student school day flexibility when we open our new PreK-5 building.

In an effort to compete for substitute bus drivers the following is being recommended:

1. Increase our regular substitute bus driver wage from \$15.00 per hour to \$17.50 per hour.
2. Guarantee substitute bus drivers 2 hours pay in the morning and 2 hours pay in the afternoon.

The current \$15.00 per hour substitute bus driver wage has been in place since 2012.

To both compete for substitute bus drivers and recruit bus drivers to the school district the following proposal has been developed:

1. Create two (2) "contract substitute bus drivers". These drivers would be regular BOSS bargaining unit members and afforded all the rights and privileges of a regular bus driver.

2. These drivers would be guaranteed two (2) hours pay in the morning and again two (2) hours pay in the afternoon.
3. The regular bus driver wage would apply: FY 2018/2019 hourly wage range \$21.04 to \$23.67, FY 2019/2020 hourly wage range \$21.45 to \$24.14.

The general economics of increasing substitute wages is to reduce overtime currently being used to offset employee absence from work. In the case of transportation, we routinely have our school bus mechanics filling in for absent bus drivers resulting in overtime for our highest wage earners.

<u>District</u>	<u>County</u>	<u>Substitute Driver Wage</u>
Brecksville-Broadview Hts.	Cuyahoga	\$15.00
North Royalton City	Cuyahoga	\$17.95 (increase yearly w contract)
Cuyahoga Heights	Cuyahoga	\$21.00
Solon City	Cuyahoga	Subs are Contracted \$17.51-\$27.13
Revere	Summit	\$17.03
Highland Local	Medina	\$16.50
Independence Local	Cuyahoga	\$15.00
Olmsted Falls CSD	Cuyahoga	\$16.50
Parma/Brooklyn City	Cuyahoga	\$15.87
Mayfield	Cuyahoga	\$15.50
South Euclid Lyndhurst	Cuyahoga	\$15.50
Medina City	Medina	\$17.00
Nordonia	Summit	\$17.48
Bedford	Cuyahoga	\$14.00

Food Services Substitute Cafeteria Worker Wage

To remain competitive for substitute support in the food service department, both internally and externally, it is being recommended that the food service substitute rate be increased to \$10.00 per hour.

<u>School District</u>	<u>County</u>	<u>Food Service Substitute Hourly Wage</u>
Brecksville-Broadview Hts.	Cuyahoga	\$8.55
Akron	Summit	\$10.04
Bay Village	Cuyahoga	\$11.33
Chagrin	Cuyahoga	\$11.00
Highland	Medina	\$9.00
Independence	Cuyahoga	\$10.00
Lakewood	Cuyahoga	\$8.55
Mayfield	Cuyahoga	\$9.00
Medina	Medina	\$8.55
North Royalton	Cuyahoga	\$11.25
Parma	Cuyahoga	\$9.99

Transportation Fuel Tank Contamination

This past Monday afternoon our diesel fuel tank at transportation was contaminated with water by our Ohio Schools Council (OSC) fuel vendor Lykins. This occurred during a routine diesel fuel delivery to the site. School district mechanics became aware of this issue Tuesday morning upon arrival to work when they found the tank monitoring system in alarm.

As a result none of our school buses were able to fuel Tuesday morning at our location. Immediate arrangements were made with North Royalton Schools to fuel our buses at their transportation depot. Unfortunately, seven (7) of our school buses fueled Monday

afternoon following the Lykin fuel delivery. We have already experienced mechanical issues with three (3) of these seven (7) buses.

Both the OSC and Lykins have been very receptive to correcting all related problems to their delivery of contaminated diesel fuel. We are tracking very closely all related expenses and it is our expectation that Lykins will make the school district whole as soon as all work cleaning and refueling our diesel tank is complete.
