

Cellular Reimbursement for Administrators

Currently, the district reimburses 10 administrators that "opted in", \$23.00 per month, for their cellular phone usage for school business. This expense is paid to administrators directly as a taxable "payroll" item. Some personnel receive two or three times the typical fee due to expanded responsibilities. **See below.**

Currently that equates to a \$322 monthly expense OR \$3,864 annually, calculated over a 12-month period. If all administrators opted in to be reimbursed, that would equate to \$649.75/month or \$7,797/annually.

As requested, I've also taken a straw poll of several other local districts regarding their cell phone reimbursement policy:

- **North Royalton** - no reimbursement
- **Independence** - \$60.00/month, non-payroll stipend reimbursed by receipt.
- **Strongsville** - no reimbursement (only a few maintenance personnel given basic cell phone allowance)
- **Rocky River** - no reimbursement (however, they offer Section 132 "commuter" plan to allow personnel to set aside payroll funds pre-tax for expense)
- **Nordonia Hills** - \$100/month maximum stipend, non-payroll, plus "up to" \$150.00 every two years towards purchase of new phone.
- **Garfield Hts** - \$25 to \$50/month for administrators depending on title. Non-payroll stipend reimbursed by receipt. Written into negotiated contract.
- **Maple Hts** - \$30/month, written into contract, negotiated. Non-payroll stipend reimbursed by receipt.

As a side note, I spoke to John Schinker regarding apps and data usage. He said it is difficult to near impossible to determine cellular data usage and cost associated with any particular app usage by staff.

Cell Phone Reimbursement (Stipend) - BBHCSD

Paid 2nd pay of each month (started January 2005)
