Mark,

Thanks for adding the Shook folks to this email chain – I forgot to do so before sending (apologies Eric and Chris). We are assuming the intent is to leave the collaborative spaces unchanged, so there is no adverse impact to the collaborative space. Ryan wants to work up a few sketches to analyze impact elsewhere, but it is tough to do so without knowing how many and what type of spaces would be added. I feel safe in stating we can come up with a solution that does not impact anything that we can't deal with through design.

So the simple answer is – there isn't anything else the Board needs to consider when making this decision. Hopefully, the decision before the Board is simplified to a question of the desire for more space and the cost impact of the decision.

Thank you for working through this so diligently with our team.

Chris,

Will adding classroom / resource room space impact the footprint or the collaborative spaces? Are there any other implications the Board should be aware of?

I added Eric and Chris from Shook to the cc as I did not see them in your reply.

Thanks...Mark

Mark,

We've crunched the numbers and wanted to share ASAP, so here they are. I'm copying Eric and Chris from Shook, because they will ultimately be responsible for the GMP. To give the Board the most flexibility in determining what type and how many additional spaces to add, we've broken the cost down to the type of classroom. They are:

Additional PK/K classroom: \$300K

Additional 1-5 grade classroom: \$250K

Additional SE resource room: \$175K

After the Board sets a direction and authorizes us to proceed, we'll revise the floorplan to include any additional space. After we revise the plan and gain approval from the Board, TDA and Shook will begin the estimation process for the DD set of drawings. Our hope is to present the revised plan, estimates and schedule at a

Board meeting in June. After the Board approves the DD submission (plans, estimates, & schedule), we'll proceed with creating the GMP documents. The next approval for the Board after the DD approval will be the GMP amendment as presented by Shook. This will give them authorization to bid and start construction.

I hope this helps. Please let us know if there is any further information we can provide to support a productive meeting on the 17<sup>th</sup>.

**Subject:** Re: [BOE-Group] Wednesday board meeting

Hi All,

Given our 4/10 meeting, it came to light that we may not have enough classrooms to accommodate our current enrollment trend. The purpose of this meeting will be to review where we stand with classrooms/enrollment and for the Board to provide direction. Below you will see an updated chart with **Estimated Enrollment Fall 2021**. Our kindergarten enrollment is already up by 45 students at this point. There is no way to know where it will end up and if this is a new trend or a one-time anomaly. For planning purposes, I went with kindergarten classes of 250 for the next two years (Joelle agreed this was a reasonable guess but, it is still just a guess).

Currently, the collaborative spaces would need to be converted into extra classrooms which is not ideal. TDA will work up some options for us to add classroom space. These will be rough so do not expect much detail. The board will need to review the information and decide on whether to leave the design "as is" or adopt an alternative option to add more classroom space. This decision has to be made ASAP, hence our meeting next week.

A concern was also raised in the 4/10 meeting about inadequate resource rooms for our enrollment. Joelle, can you please investigate this and share your findings? If resource rooms need to be added, we need to know that now. If we do not need to add resource rooms, we need a good explanation we can share with our staff to hopefully alleviate their concerns.

| Grade Level  | TDA Preso "Current" Enrollment | TDA Preso "Projected" Enrollment | Current Enrollment (4/10/19) | Classrooms Needed For Target | Estimated Enrollment Fall 2021 | Classrooms Needed For Target | Target Ratio | Classrooms | Collaborative Spaces | Resource Rooms | Comments                                                                       |
