Dear Mrs. Mack,

These are some of the questions that the city of Broadview Heights would like answered at the public forum on April 10th at the community meeting.

Regards, Mayor Samuel J. Alai

- What is the appraised value of the Brecksville property that is being given to the BBHCSD for the new building?
- What is the appraised value of Central School?
- What is the appraised value of the property on Stadium Drive, and when will it be determined if it is included in the land swap?
- Are any other property trades being considered?
- When were each of the three properties last appraised? Is an appraisal pending?
- Are the legal agreements for the land swap available to the public?
- Have all the property transfers taken place? If not, when will that occur?
- Once the property is transferred, who will own the property on which the fieldhouse stands? If the BBHCSD owns the property, will there be a lease agreement with the city of Brecksville and for how long? Will there be a reverter clause that provides a mechanism for Brecksville regaining ownership of the land and/or buildings on the property where the fieldhouse and school buildings are built if, for some reason, the BBHCSD decides to give up control/ownership? (ie. Wallings Rd. School, Central School)
- At a recent Board meeting, a question was asked about the use of the fieldhouse (after school hours). A "policy" was mentioned. What is that "policy" and will ALL taxpayers in the BBHCSD be able to use the fieldhouse after school since BBH and North Royalton taxpayers are contributing to its construction? How do we get a copy of the "policy"?
- What % of the fieldhouse construction is being paid by Brecksville vs. how much is being paid by BBHCSD taxpayers?
- What % of the monthly fieldhouse utilities is being paid by Brecksville vs. how much is being paid by BBHCSD taxpayers?
- Who is paying for the insurance on the fieldhouse?
- Will the BBHCSD have use of the fieldhouse for any evening activities?
- What security measures will be in place at the fieldhouse during school hours to restrict entrance by the public, contractors, vendors, etc.? Will any Brecksville city employees be on-site at the fieldhouse?
- Who will be responsible for infrastructure improvements in the neighborhoods surrounding the new building (ie. storm and sanitary sewers, water runoff, water lines, etc.)?
- Are all of the wetland issues resolved with the EPA?
- Will there be an access road that connects the current Brecksville-owned buildings at Blossom Hill to the new school building? If so, who is financially responsible for constructing the road and who will maintain it?
- When will construction start?
- What is the school's projected opening date?
- When will floor plans be made available to the public?
