Now for the President's Report - I have 1 announcement, 1 item related to protocol, and 1 note of recognition.

The second item is a matter of proper protocol. Specifically, I want to address recent past voting on recommendations by the Administration for supplemental contracts.

As you know - we, as Board members, regularly vote to affirm or reject the recommendations by the administration for the supplemental contracts for the District. Rather than voting on each contract individually, we typically get the recommendation as a collective group and vote upon them all at once with 1 vote. My husband, who has been an approved coach in our district while I have been a board member (and has been a coach in the district many years prior if I may add), has typically been a part of the collective recommendation and the subsequent annual approval by the Board, And of which I have on 3 occasions abstained in voting and on 6 occasions unwittingly participated in the voting. It has come to my attention that the Proper protocol is for that recommendation (because he is a relation of mine) should be separated as was done at our last meeting, and for me to abstain on that vote.

So I, for the record, just wanted to make you all aware that I did reach out to the Ohio Commission on this several weeks ago and detail for the Commissioners each my past votes for supplemental contracts and request guidance on the method of rectification if it is required, and will report to you once that is accomplished if it is necessary.
