Program Mission:

The mission of the International Cultural Exchange Program is to promote global citizenship within the Brecksville and Broadview Heights communities, to foster an appreciation for travel and other cultures in the youth of our communities, and for students of the BBHCSD Spanish program to utilize their Spanish language skills in a real-world setting.

Program Description:

The International Cultural Exchange Program will be a biennial event with students from Colegio Bilingue Atalaya traveling to Broadview Heights, Ohio, USA in August of every odd year and students from BBHHS traveling to Estepona, Spain in June of every even year. Students of both groups will travel and tour major cultural sites within the cities and countries of destination before arriving and staying with families residing within the school district and attending the aforementioned institutions. While staying with resident families, students will engage in excursions in and around the city of residence, as well as attend school with their host-student to experience what typical education is like in a different country. Students will travel with adult staff who are directly involved in the Spanish language program or in the exchange at a ratio of 1 adult per 7 students with no more than 10 students per staff member. Travel expenses of chaperones will be split among the travelling students. Students of both groups will be traveling outside of their respective school year so as to not miss instructional time. Social functions will also be planned outside of school time to engage all families and all family members involved in the exchange and for visiting students to experience the social aspect of the resident culture.

Educational Impact:

The entire student body of BBHHS will have the chance to interact with individuals from a different culture, who speak a different language, and can offer a different perspective of the world. They will reap the many benefits of broadening one's experiences and gain more appreciation for multicultural diversity. Students

who are directly involved with the exchange and are enrolled in BBHHS Spanish courses will exponentially increase their language skills as they experience using them in a real-world setting with native speakers. Students are unable to earn any high school credit through participating in the program due to its voluntary nature.

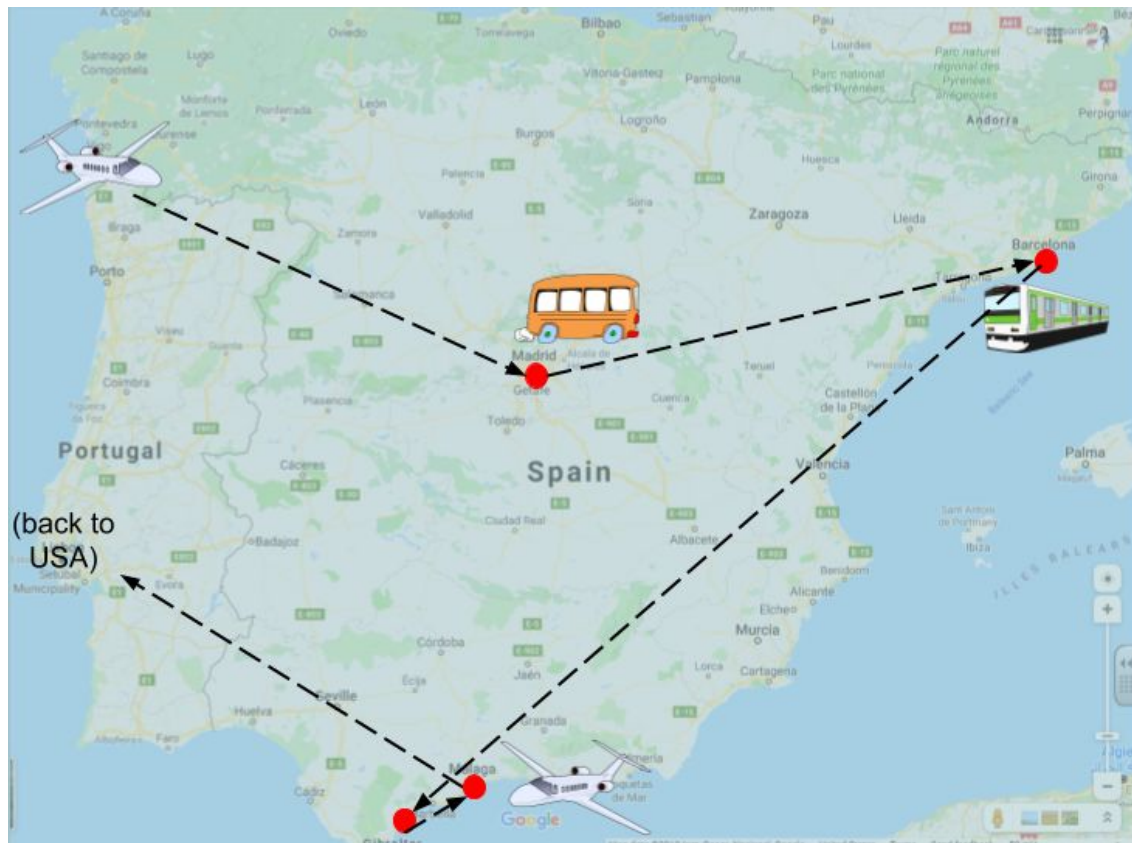

Responsibilities of Brecksville-Broadview Heights City School District (BBHCSD):

- A. The visiting Spanish students will come to school with their American host in the same manner that their host does. This could add additional students to some bus routes, though the majority of the American host students provide their own transportation.
- B. The visiting students will be taking field trips around the area requiring the use of district school busses.
- C. Meetings and gatherings in association with the exchange program in preparation for, during, or after the exchange, will take place on school property.
- D. All parties will be informed orally and in writing that the decision to cancel or postpone the trip due to currently unforeseen circumstances rests with the Superintendent and the Board of Education, and the Board will not reimburse any deposits lost due to such cancellation.
- E. The Board of Education is not expected to expend any funds in the sending and receiving of students to other countries. Parents and students will be responsible for all costs associated with this program. The Board will not be responsible for reimbursing any deposits lost due to cancellation.
