

Brecksville-Broadview Heights City School District
Worker Safety Plan for COVID19 Pandemic
Revision Date 5-26-20

Purpose of this Plan:

This plan articulates employee general safety provisions under the current COVID19 pandemic. It provides proper protocol and worker guidance. This guidance is being implemented to comply with the Ohio Department of Health orders under the COVID19 pandemic. This plan will be adapted and changed as new information becomes available and requirements change.

Employee Protocols Required

The below employee safeguards are required for all employees working at school facilities.

- **Only Essential Workers are to work within the school facilities**
 - Do not come to work unless you are specifically scheduled and have the approval of your supervisor. Your supervisor will determine the essential work to be completed on-site and will set work schedules accordingly.
- **Employees must stay home if symptomatic.**
 - Do NOT come to school if you are sick or have symptoms
 - Per ODH - Stay home until free of fever or symptoms (without the use of medication) for at least 72 hours (three full days) AND symptoms have improved for at least 72 hours AND at least seven days have passed since symptoms first began. [link](#)
- **Employees must perform daily symptom assessment**
 - Complete a daily symptom assessment to include taking your temperature with a thermometer to check for fever.
 - Take your temperature at home to make sure you do not have a fever (at or above 100°F). If you don't have a thermometer at home, temperature taking stations are located at the main entrance of each school.
 - Also watch for coughing or trouble breathing
 - If you have any of the above symptoms don't report to work then immediately contact your supervisor. Human Resource Director to monitor daily staff attendance.
- **Employees must wear face coverings**
 - Current guidance on Cloth Face Coverings (Masks) COVID-19 Checklist can be found on ODH website at this [link](#)
 - Masks or cloth face coverings have been issued to essential workers
 - If you do not have a cloth face-covering then, request one from your supervisor prior to working.
 - If you have any medical reasons you cannot wear a cloth face-covering please report that information to your supervisor.
 - A resource on making cloth face coverings can be found at the CDC website at this [link](#)
- **Employees must practice Social Distancing**
 - Social distancing also called "physical distancing," means keeping space between yourself and other people outside of your home. To practice social or physical distancing:
 - Stay at least 6 feet (about 2 arms' length) from other people
 - Do not gather in groups
 - Stay out of crowded places and avoid mass gatherings

- **Employees must wash hands regularly**

- The use of hand sanitizer or hand washing products is available. Hand washing is preferred and most effective. A hand washing guide is provided by the CDC at this [link](#)
- The staff restrooms are open, but student restrooms are closed in an effort to keep those areas sanitized.
- Staff in the building are to use staff restrooms for the purpose of hand washing and these are being frequently disinfected.

- **No visitors or guests allowed**

- No visitors, no guests, or non-employees are allowed to access the school facilities at this time. Do not bring children or family to the school.
- If an outside visitor, parent or student is required to enter a school building the Building Principal must be informed. The visitor must be entered into a log to include their name, contact information, temperature, the date, time entering and time exiting the building.
- The following questions are to be asked of all building visitors:
 - 1.) Have you recently run a fever?
 - 2.) Have you been experiencing shortness of breath or difficulty breathing?
 - 3.) Do you have muscle pain or feel sick?
 - 4.) Have you experienced any gastrointestinal symptoms like nausea, vomiting or diarrhea?
 - 5.) Have you been in contact with someone that has tested positive from COVID19?
 - 6.) Have you traveled overseas within the past 14 days?

- **We are here to help you**

- This is a very challenging time for everyone and the district is here to support and help you. If you are feeling anxiety or concern or need support please reach out to your supervisor.
- The Ohio Department of Health provides some recommendations for those having anxiety around COVID19. A link to that resource is located here [link](#).

- **Frequent Disinfecting**

- Custodial staff clean and disinfect commonly touched surfaces, such as workstations, countertops, railings, switch plates, door handles, and doorknobs on a daily basis with hospital-grade disinfectants.
- Disinfectant spray cleaner or disposable wipes (if available) is provided so that commonly touched surfaces can be cleaned by all employees before each use.
- Building Principals and Head Custodians will be communicating schedules and worker access so daily disinfection can occur in areas used by office workers and other staff.
- Cleaning and disinfecting products used are:
 - Spartan HDQL #10 Multi-Surface Cleaner and Disinfectant, a multi-purpose spray, EPA registered product quickly disinfects and kills 99.999% germs, bacteria, and viruses. Kills novel coronavirus (COVID-19), MERS, SARS, and a broad spectrum of other viruses and bacteria. This is the primary cleaner used by the district.

Version 5-26-20 - This plan will continue to change as conditions change and each new version of the plan will be posted with a new revision date.
