Subject: Cuyahoga County BOH updates

Hi everyone,

This morning we had an extensive conversation with Rick Novickis and Terry Allan at the Cuyahoga County Board of Health. They have been very helpful in explaining their concerns around using community/zip code levels of data for decision-making. The attached letter they have sent to Representative Greenspan also describes some of the issues with this approach. We will talk more about this on Friday as I know districts are still trying to make determinations about reopening schools.

As you know, some of the urban districts have announced plans to begin the school year remotely for the first nine weeks. In addition, yesterday, Franklin County Department of Health strongly recommended that all districts in Franklin County begin the school year remotely until further notice. Their plan in Franklin County is to monitor and update districts weekly based on a rolling four-week data cycle that will look back at the previous four weeks. Franklin County Dept. of Health will then only recommend moving to a next phase of operation once the entire four week trend shows a downward trajectory of these data elements.

In our call with Rick and Terry, they are also very concerned about schools opening and will be taking a close look at what Franklin County is recommending. Neither Boards of Health can require a school to close, but we may see some strong recommendations soon from Cuyahoga County Board of Health similar to Franklin County.

There will be a lot more to discuss on Friday's Leadership Roundtable, but we are sharing this information with you now to give you a heads up as I know you continue to work with your administration and community on your reopening plans. We recognize that many may be making preparations to have plans board approved or released to their communities. However, we believe it would be helpful for you to, if at all possible, delay these approvals and releases until we have an update from the Cuyahoga County Board of Health. I don't know what details we will know by Friday's meeting, but we will be able to get a continued sense of their direction as they will be joining us on the call.

In the meantime, we will continue to work closely with them to get you updates and information as soon as possible so you can continue to move forward effectively.

Sincerely,

Bob and Jenn
