

Superintendent Evaluation Procedure

To streamline and improve our process, I am suggesting that we adopt the following procedure to unpack the superintendent's evaluation.

- 1. President will provide a summary of the overall evaluation process and why it's purpose is to provide feedback to the district leadership**
- 2. Each board member highlights three areas of success**
- 3. Ms. Magyar will share three areas from this year that she sees as successful**
- 4. Each board member highlights no more than three areas in need of growth**
- 5. Joelle highlights areas she perceives in need of growth**
- 6. Collaborative discussion between Joelle and the board about the next year's goals as a collaborative team**

- Any concerns (rebuttals) that Ms. Magyar has about the evaluation may be submitted as a written statement. Areas of disagreement can be documented in the eval under the OVERALL COMMENTS - SUPERINTENDENT section and become part of the final version filed with HR. The eval review should not exceed the allotted time. We should all help facilitate the conversation to stay productive and avoid negative rabbit holes.**
