Virtual Industry Interviews

On Friday, November 20, CVCC students did a great job participating in the Virtual Industry Interview Project, in which they interviewed professionals in their chosen field online. 56 students met virtually with 26 businesses, of which 15 were located in CVCC's associate school district communities. The goal of the Virtual Industry Interview project is to broaden student knowledge of current hiring practices and trends in their program areas. This year, students specifically obtained experience with Virtual Interviews, which may be encountered in future job searches due to the current environment this year.

Instructors had the choice of having their class participate in classroom presentations or individual student interviews.

The following five CVCC programs participated:

Architecture and Mechanical Design, Graphic Imaging Technology, Media Arts, Power Equipment Technology, and Programming and Software Development. Many successful and well-known businesses and organizations participated, including Brecksville School Bus Garage, GPD Group, Greater Cleveland Film Commission, Hyland Software, Ohio CAT, Progressive, Sherwin Williams, Sohar's All Season's Mower Service, and S. P. Mount Printing. Most reviews of our students during the experience were outstanding;

several organizations mentioned that their student interviewer would be a good fit in the field and many offered constructive advice. Thank you to all who put in time and effort to make this event a success, especially Martha Sluka, CVCC's Career and Community Resources Specialist, Maria Dworning, CVCC's Job Placement/Career and Community Resources Administrative Assistant, the IT

Department who assisted with unique technology needs for the event, and CVCC Media Specialist, Gabrielle Scorzino who had to get creative with this year's class photos due to social distancing protocols.

Wreaths Across America

The annual Wreaths Across America project was a success! CVCC's Power Equipment Technology, Construction Trades, and Education Professions Program students joined the cause to ensure that veterans at Ohio Western Reserve Cemetery are honored. Throughout this service-learning project, 226 wreaths in total were sponsored, how admirable! This year, the National Wreaths Across America Day ceremony, held simultaneously across the country at more than 1,200 locations, will not be open to the public. CVCC is so proud of its students and community members for supporting this cause, and thank you to everyone who participated.

The Virtual Summit Cybersecurity Competition

In recent months, CVCC students in the Programming and Software Development program, and Computer Networking Academy program had the opportunity to compete in a virtual Cybersecurity competition. Participating in the event, which was posed as a virtual capture the flag completion involving problem solving, gave the students an opportunity to talk with professionals and learn about careers related to the cyber field.

The event came with specific rules and conditions that needed to be followed. It was an exceptional experience, which gave students the space to

have fun as well as learn. CVCC appreciates RITE, Northeast Ohio Cyber Consortium, Greater Cleveland Partnership, Baldwin Wallace University, The University of Akron, and OC3 for their support in this event.

CVCC Cosmetology Students are Thankful

Prior to the Thanksgiving break, CVCC students in Ms. Mormile's junior Cosmetology class surprised her by making a Thanksgiving poster, showing how appreciative they are for her and all she does. Ms. Mormile was so honored, as her students all decorated and signed the poster, as well as wrote her a very sweet letter detailing how thankful they are for her! What a lovely way to celebrate the Thanksgiving holiday!

Congratulations CVCC Adult Education Student

Cuyahoga Valley Career Center sends congratulations to Adult Education student, Asia Jackson, who recently earned her Adult Diploma! Best wishes on your future endeavors!
