

A few changes to highlight as we are trying to clean up processes and increase transparency when it comes to extended days and our HS counselors. We made a change to this group and I will do my best to explain this with a few images so it makes sense. This is what was posted in BoardDocs as of yesterday.

This represented 8.5 days for Kyle, Halle and Gina, 3.5 days for Kaitlyn and 10.5 days for Jaci. This method is misleading because the counselors work the majority of the 5 additional extended days right before school starts and only work 1 day over the summer. One counselor is scheduled each Wednesday over the summer for a total of 5 summer days (not 20). Therefore, we have for approval tomorrow an effort to clean up this summer (Supplemental Contracts for each person to pay them for the day they will work this summer) and then move those other days to their regular extended days which will cover them for next summer. There are NO changes to the summer schedule. Those scheduled Wednesdays will continue under this change.

In the example above, Gina had 5 days on the prior page (how it has been done) and we moved 3 of those days down to extended days. The 1 day is pay her for the day she works this summer. Moving forward, these other days will be added to their work days and stretch paid as the BEA contract indicates. Overall, this is a small reduction of 4.5 days for the department (not per person), but Kevin is confident this will be fine since scheduling was already released this week for next year and they anticipate fewer issues at the start of next school year as it relates to scheduling. Again, there are no changes to the summer availability of counselors.

HS Principal, HR and Superintendent were all part of these conversations. The BEA contract says these days are at the discretion of the board and evaluated annually, so this is the proposal you will see in Board Docs for tomorrow. If we need more or less days, that will be ready for a recommendation next May.
