Our Process

A Risk Management Profile - A risk management representative will conduct an on-site visit to identify existing and/or potential liability, property and fleet exposures using our risk profile worksheet.

Policy and Procedure Review - Risk Management Services will review established policy and procedure manuals and offer written opinions from the review.

Recommendations – Risk mitigation recommendations will be made from information gathered during the profile to assist in reducing identified areas of exposure.

Technical Assistance – Service team members are available to conduct site visits to discuss problem areas, specific concerns and assist in the development of written policies and procedures tailored to your operations.
