Mark and Ellen -

Just a quick update that we will be adding a contract from PowerSchool to convert to using their Student Information System for the 2023-2024 school year. This contract is for conversion and implementation and we are NOT electing the advanced part of this contract since Connect will provide this for us - so the cost is \$64,000. While this an upfront cost, the improvements of a more modern solution should greatly improve the organization and on an annual basis, this platform is about 8,000 cheaper than Progressbook/DASL. Of course there may be some growing pains with a switch like this but other schools are making the switch as well. This was a request that came to us from our Principals. For reference, Shaker and North Royalton just completed their conversion last year and went live this year.

Just giving you both a heads up since the quote wasn't available at our meeting yesterday and just came thru this morning. I will add to BoardDocs later today.

Thanks!
Craig.
