Base adjustment - me too on % of admin or teachers?

1% increase for 2 years and changes to longevity stipend in last 2 years of a 5 year contract.

Contract is for 250 days. If I work an additional 10 days I could be paid for those days at per diem with Board President approval.

Added salary increase so that salary increase + annuity increase = 2.75% each year. This assumes we match teachers base adjustment and that it remains 2.75% in FY26-FY28.
