Subject: Sabbatical

Dear Ms. Magyar

I am kindly requesting to be considered to go on a sabbatical leave for the 2023-2024 school year. I will use this time for three things.

- To help my family business so that my mom can take more time for her health.
- To reflect on methods and strategies for acting as a positive influence for students in our community while navigating the pressure of naysayers.
- I will also be using the time to be part of a model curriculum team titled HELP(s). The Behavioral Health Education Lesson Plans (HELPS) Project seeks to enrich students' knowledge, skills, and beliefs to demonstrate healthy behaviors in behavioral health topics through effective instruction and positive learning experiences across Grades K-12. My role is to co-lead the Middle School Grade Band lessons and help with the professional development modules.

Upon return to the district, I would love to use what I learned to help better our students when it comes to their overall wellness and help to make them the best versions of themselves in Health Education and Life Skills.

Thank you for your consideration.

Maria Schneider
