

Strategic Planning and Planning Process TENTATIVE TIMELINE 2023 - 2024

Purpose: To successfully prepare for a new era of achievement, accountability, and growth in the Brecksville-Broadview Heights City Schools with a revised strategic planning process aligned with specific dates and milestones.

- **August 1st – December 31st** **ONBOARDING PHASE: Understanding the lay-of-the-land**
Superintendent Harrison successfully uses the first four months in his official capacity to develop a Current State Assessment (CSA) of the landscape of the district, managing the day-to-day affairs, engaging with leadership, employees, observing student-life and operations, and interacting with necessary community stakeholders. This timeframe provides time to observe operational nuances of the district. The coming planning process is thoughtfully considered, shared with the Board of Education, and aligned with needed components to begin in January 2024.
- **January and February 2024: Identification of Core Beliefs and Values** **SEEKING STAKEHOLDER INPUT**
The BBHCSD will conduct four information gathering sessions, two of which will be community-based, and the remaining two will be staff-based and will be led by Superintendent Harrison and facilitated by a professional information assessment firm, who will ultimately *conduct a scientific community survey*. These four stakeholder informational meetings will engage participants in order to tap the pulse of our school family and our community to discern what values and beliefs exist and are affirmed, as a very significant first step in the planning process. ***We believe that we must seek community input as a first step to know the foundational beliefs that guide our school family.*** Finished product is the creation of BBHCSD Core Beliefs, and the feedback from these meetings prompt the creation of questions for full-blown survey. Plan to host two sessions mid-late January and two sessions mid-late February.
- **February 2024: Strengths, Weaknesses, Opportunities and Threats** **LEADERSHIP WORK BEGINS**
The BBHCSD Administrative Leadership Team, referred to as the “A-Team,” convenes to begin its work on the strategic plan. Once Core Beliefs are established, BBHCSD leadership will make its next step a continued Current State Assessment with an evaluation of the *district’s Strengths, Weaknesses, Opportunities, and Threats, with a finished product being a S.W.O.T. analysis for use in the development of subsequent components.*
- **March 2024: Mission Statement Re-evaluation** **LEADERSHIP WORK CONTINUES**
The BBHCSD Administrative Leadership Team will engage in a discussion of the operational existence of the organization. Answering the proverbial question: Why do we exist as a school district, will be thoroughly discussed by the A-Team, with a *finished product of a revised Mission Statement for the BBHCSD.* Community survey goes into field.
- **April 2024: Vision Statement Re-evaluation** **LEADERSHIP WORK CONTINUES**
Once the determination is made for why an organization exists, focus will shift to where the organization is headed in the next 3 – 5 years. The BBHCSD Administrative Leadership Team will contemplate this prompt, with the intention of creating a *revised vision statement as a final product.* Community survey finishes in the field, helps identify values.
- **May 2024: Areas of Focus to Become S.M.A.R.T. Goals:** The Administrative Leadership Team will identify the areas of BBHCSD operations which require thought, planning, care, attention and focus, based upon the previous 4 months of discussion. Areas of focus are distilled into S.M.A.R.T. Goals, highly specific, measurable, timeline-oriented statements of accountability, that the district believes can be achieved. Finished product is 3-5 District Goals.
- **June 2024: Action Steps to Accomplish the S.M.A.R.T. Goals**
Members of the administrative team will invest significant time outlining the refinement of the plan-to-date, and the accomplishment of each goal, along with the development of the Most Accountable Person (M.A.P.) and timelines for accomplishment.
- **July-August 2024:** Draft Plan Writing- significant authoring of the final draft plan takes place.
- **September 2024:** Submission to the Board of Education by the Administrative Leadership Team for approval.
