

Brecksville-Broadview Heights City Schools
Application to the Board of Education
Proposal for Overnight/Out of State Trip

Please submit application to the building Principal/Athletic Director for initial approval before submission to the Board of Education.

Please provide all of the following information:

Group or Organization: AP Environmental

Staff Member in Charge/Position: Dan Reynolds: - Teacher

Destination: Hocking Hills State Park

Departure/Arrival Information:

Leaving School	Date: 5/20/24	Time: 7:00 AM
Return to School	Date: 5/21/24	Time: 6:00 PM

Proposed Date of Trip: 5/20/24 - 5/21/24

Date by which response is needed: 12/7/2023

1. Trip Expenses:

- A. Mode of Transportation (*Name of Company*). Does the carrier have liability insurance? What kind? Are turnpike fees included?**

One district school bus and 1-2 school vans for transport of camping gear/supplies brought by students. No turnpike fees are necessary as there are no toll roads utilized.

Total Cost of Transportation: \$2,700

- B. Lodging Information (*Include addresses, contact names and phone numbers*).**

Hocking Hills State Park Campground - 19852 State Route 664 Logan, Ohio 43138 on two Large group campsites. 740-385-6842

Total Cost of Lodging: \$150.00 - Split between all students.

C. Meals (List all meals included in the trip. Please note how many meals will be participants' responsibility)

All meals are provided by the students

Total Cost of Meals: N/A

D. Are there any supplementary activities? Are entry fees required?

Ziplining - \$87.00/student

Kayaking - \$50.00/student

Total Cost of Activities: \$137.00

Calculations of Event Expenses:

1. Transportation	\$2,700.00
2. Lodging	\$150.00/split amongst students
3. Food	\$0
4. Event Fees	\$137.00/student (based on 49 students \$6713 total)
5. Other	\$0
Total	\$9,563.00

2. What arrangements have been made for administering necessary medications to students while on this trip?

All necessary medical information is discussed with the school nurse in the two months prior to the trip. The school nurse provides me with a printout of all medical issues (medications, allergies, etc) and medications are provided the day we leave for the trip.

3. What arrangements have been made for dealing with emergency situations? Who will be responsible for all medical information sheets? How will the forms be stored and transported?

All chaperones will have copies of the medical forms, but I am the main contact and will have all necessary medications with me.

4. If tour guides are involved, what liability insurance do they carry?

Kayaking - Hocking Hills Adventures: Online waiver is completed with a parent after watching instructional video/reading information.

Ziplining - Hocking Hills Canopy Tours: Online waiver completed with parent.

- Being that a waiver is completed for both, liability is transferred to parents.

5. How is the trip related to the educational program of the district?

AP Environmental is a course that lends itself to outdoor programming, as it is a study of how our Earth functions as well as how we may better serve it, such that it continues to provide for us in return. A major theme of the course is sustainability and conservation, and in my eyes there is no better way to gain an appreciation and understanding of something than to experience and immerse yourself in it. It is surprising the number of students that I have had through the years who have never gone camping, or even visited a park other than those in our own town. As mentioned in #6 below, seeing the beauty the Earth provides first hand goes a long way in building good young environmental stewards who will promote sustainability, positive change, and preservation of these critical resources.

6. In what ways will the students benefit? How will the district benefit?

Being that this is an AP Environmental course, the students get the overnight experience of camping/kayaking/ziplining/hiking, which ties in some of the major themes of the course which all ultimately stem from an appreciation of the Earth they live in. I always teach them that in order to truly appreciate something, it is critical to immerse yourself in it, and feel that you are a part of nature as opposed to apart from it. The district benefits in continuing to provide rich opportunities for their students to grow and develop outside of the walls of the classroom.

7. How will the trip be evaluated to determine the extent to which these benefits were realized?

Student feedback - I've been running this trip for 11 years now, and it has always been a highlight of their high school experience.

8. How many students in total? Are any students experiencing academic problems? What previous experience has the staff member had in conducting overnight or extended field trips? What other staff members will be going?

If all students decide to participate in the trip, there will be 49 in attendance. Students are not forced into going on the trip, and if they decide not to participate they will need to attend school and complete alternate projects. As has been the case in the past, any student that is failing to earn a "C" or higher in the course, OR is not recommended to participate by another teacher due to academic reasons, will not be allowed to participate.

Personally, as the staff member in charge, I've been running this same trip for 11 years, and as the coach of the tennis teams for 18 years, I've had a great deal of experience with overnight trips.

The staff members that plan on going with us are: my wife, Allison Reynolds, as well as Nick Palumbo.

9. How many chaperones, in addition to staff members, will be going? What are their names and affiliations with the students?

I plan on bringing one chaperone, Jaclyn Palumbo (Nick's wife), who is certified to attend trips through the district and has attended in the past. I may need to find a new chaperone for this year as she is currently pregnant. If she is unable to go, I will have another staff member from math or science attend in her place.

10. Will any school days be missed? If so, how many? How will teachers be advised in advance that the students will be out of school? How will missed work be made up? What special assistance will be provided to students with academic problems?

Two days will be missed by any juniors in the course. Being that this trip falls after the seniors last day of school, the seniors will not miss any school days. Emails are sent out a month prior, and students are responsible for their missed work. If any teacher has an issue with a student attending due to poor academic performance, they are welcome to inform me so that alternate arrangements can be made.

11. Estimated Cost to Organization and how is this trip funded? How are the funds collected and safeguarded? How will any shortfall be made up or excess funds used?

The estimated cost to the district is the cost of transportation to and from the facility. The students are responsible for all other costs described earlier in the form. The calculations are made out in advance as to how much each student will owe, thus there should be no need to account for any shortfalls or excess funds. The funds are collected by me from each student and are stored in the school safe until deposited into the school accounts each day.

Date of Submission to Athletic Director/Principal: 11/27/2023

Signature of Athletic Director/Principal indicating endorsement KG Palumbo
