Adopted	October 25, 2023

5330.02 - **EPINEPHRINE AUTO-INJECTORS: MAINTENANCE AND USE**

In consultation with a licensed health professional who is authorized to prescribe drugs, and in accordance with State law, the Superintendent hereby approves this policy and procedure, alternatively termed "Administrative Guidelines," governing the maintenance and use of epinephrine auto-injectors ("Epi-Pens").

- A. **Locations:** At least two (2) Epi-Pens of both dose sizes (i.e., 0.3 mg of epinephrine and 0.15 mg of epinephrine) shall be securely stored in the following location in each school building:

~~Office of School Nurse~~ Cafe, Main Entrance

- B. **Storage, Replacement, and Disposal:** Epi-Pens shall be stored, replaced, and disposed of in accordance with the manufacturer's instructions.

The school nurse is responsible for verifying that an appropriate number of Epi-Pens are maintained in the school building and they have not expired.

- C. **Individuals Authorized to Administer Epi-Pens in Emergency Situations:** The following individuals are authorized to access and use Epi-Pens in emergency situations:

1. licensed school nurse
2. licensed athletic trainer
3. building principal
4. building secretary
5. teacher
6. aide
7. other, as designated by student's IEP, 504 Plan, or IHP

Each school shall have at least two (2) persons trained in the appropriate use of an epinephrine auto-injector. Building principals shall maintain a list of the specific individuals authorized to use, in emergency situations, the District-maintained Epi-Pens. The list shall also be available on an electronically accessible site for employees' reference.

- D. **Training:** Before using an Epi-Pen in an emergency situation, an individual other than a licensed school nurse or licensed athletic trainer must successfully complete anaphylaxis training which consists of training conducted by a nationally recognized organization that has experience in providing training in emergency health care to individuals

who are not health care professionals or individuals or organizations approved by the Department of Health, or classes approved by the Department of Health. The training shall also be done in accordance with any guidance provided by the Ohio Department of Education. The training may be completed in person or through an online system, and it must include how to recognize the signs and symptoms of severe allergic reactions, including anaphylaxis; standards and procedures for administration of epinephrine and storage of Epi-Pens; and emergency follow-up procedures.

The Superintendent is responsible for coordinating the training of Board employees to administer Epi-Pens. Trained individuals must provide the District with a certificate issued by the organization or individual conducting the training attesting to successful completion of the training/classes. The certificate must be on a form developed by the Department of Health.

E. Emergency Situations: The authorized individuals may access and use an Epi-Pen in emergency situations including, but not limited to:

1. when an individual demonstrates signs or symptoms of anaphylaxis;
2. upon the first signs of a severe allergic reaction for which Epi-Pen treatment is indicated;

F. Emergency Medical Provider Assistance: Immediately following use of an Epi-Pen, the individual administering it shall request assistance from an emergency medical service provider (911). If the Epi-Pen was self-administered by the student, pursuant to AG 5330, the school nurse shall request assistance from an emergency medical service provider (911) immediately following the incident.

G. Additional Recipients of Epi-Pen Assistance: In addition to students, school employees, contractors, and visitors, an Epi-Pen may be administered to the following individuals in an emergency situation: any individual on school grounds who is believed to be having an anaphylactic reaction.

H. Reporting of Injections: Any person who administers an Epi-Pen to a student shall promptly notify the school nurse, who shall promptly notify the student's parent/guardian that an injection has been administered.

Additionally, all Epi-Pen injections by Board employees/contractors to students shall be reported in writing to the Superintendent and health care coordinator. The report shall include whether the school's or student's Epi-Pen was used and whether the student was previously known to be subject to severe allergic reaction (anaphylaxis).

Nothing herein shall affect a student's ability to self-administer Epi-Pens in accordance with Policy 5330 and AG 5330.
