Brecksville-Broadview Heights City School District

HS Science & Social Studies Board Approval Talking Points 4-24-2024

The following resources were rigorously reviewed by BBHCSD teachers and administrators. They were (and still are) available for community members to review:

AP Government	American Government Stories of a Nation for the AP Course	BFW
AP Psychology	Updates Myer's Psychology for the AP Course	BFW
AP Biology	AP e Campbell Biology	Savvas
Honors Biology	Campbell Biology Concepts & Connection	Pearson
Academic Biology	Miller & Levine Biology	Pearson
AP Physics (Mech. & Elec.)	Physics for Scientists and Engineers	Cengage
Honors Physics	College Physics AP	Cengage
Academic Physics	Academic Physics of Everyday Phenomena: A Conceptual Intro to Physics	McGraw Hill

PROCESS:

- Spring 2023 :: Planning begins with teachers and administrators
- September-October 2023 :: Teachers and administrators reviewed the process and timeline
- Fall 2023 :: Committees of teachers review data, goals, rubrics, and begin researching materials and resources, as well as contact other districts/experts to gather information on all potential products
- October-November 2023 :: Committees order sample materials they've researched. Options are narrowed down to 2-3 resources
- December 2023-February 2024 :: Committees convene to apply Board adopted rubrics to all materials ordered for previewing and set up presentations from the companies/organizations
- March-April 2024 :: Final products were available for public feedback for 30 days
- April 2024 :: See Board approval of committee recommended resources and products
- April--May 2024 :: Determine accurate roll-up enrollment numbers for 2024-2025
- May-June 2024 :: Order all necessary materials utilizing permanent improvement funds for FY25

Meeting the needs of students:

- Supports the BBHCSD Portrait of a Graduate
 - Future-Ready
 - Develops students as **lifelong learners** as they read from a wide variety of contexts and ideas with social studies and science.
 - Develops students as **independent thinkers and problem solvers** when answering essential questions, engaging in debate, engaging in experimentation, and justifying thinking with viable sources.
 - Develops **communication and listening skills** as students collaborate in groups to compare things like answers, notes, labs, and more
 - Emotionally-Prepared
 - Develops **resilient, adaptable, and flexible** thinking as students read a broad range of literature over the course of their high school
 - Grows a **growth mindset** as they analyze and understand societal and scientific concepts to learn more and understand the world around them
 - Engaging in debate, authentic discussions, and labs allows students to grow their **self-awareness to be self-authored**
 - **Self-confidence** grows when they grapple to support their thinking of complex ideas
 - Globally-Responsible
 - Students will get a **broad perspective** of the world and ideas by reading widely and developing their critical thinking skills related to social studies and science
 - Grow as **team collaborators** as they present and defend their thinking
 - Self-Reliant
 - Develop a sense of **self-direction** when deciding if ideas and concepts are valid today
 - Develop **life-skills** when collaborating, communicating, and writing

Meeting the needs of teachers:

- Develops well-rounded learners through rigorous study, debate, and experimentation
- High interest, highly engaging texts with diverse viewpoints, clear explanations of concepts, diagrams and images aid comprehension
- Cultivates critical thinking, communication, and making real-world connections through complexity and rigor aligned to Webb's Depth of Knowledge DOK 3 and 4
- Reaches all students by offering reading and study that promotes learning from a variety of levels
- Develops student's sense of owning their own learning as they gain confidence to analyze text in various ways, write about concepts being learned, and contribute to the learning community in a collaborative and inquiry based classroom atmosphere
- Meeting the learning needs of all students through differentiated and scaffolded instruction
- All instructional elements are aligned to Ohio's Learning Standards for Language Arts or aligned to the standards in College Board's Course Exam and Description
- Assessments are well designed and easy to distribute to students; includes performance and skills based assessments
- Easy to navigate online teacher dashboard

- Online data dashboard allows teachers to quickly discern which students are learning the standards and which are not to provide timely intervention or enrichment
