# WHAT IS A FORECAST?

*A forecast is a snapshot at a specific point in time and based off of the most current information available.*

## **DISCLAIMERS:**

1. A forecast is a living document and can change within hours or days of publication.
2. Assumptions laid out in this presentation in no way represent a baseline for any current or future negotiations with CBAs.
3. BBHCSD continues to monitor its financial situation in a very unique economic environment.
4. The forecast includes potential revenues regarding the Sherwin Williams/Valor Acres TIF – updated as of May 2024.

# BBHCSD IS MOSTLY LOCALLY FUNDED

# Economic Environment

1. Slow growth and high inflation still continues to drive prices of services and supplies higher.
  1. Expenditures are increasing at a little over 3% per year.
  2. Revenues are increasing less than .5% per year.
2. Economic Recession is on the horizon according the most economists – when? Second half of 2024!
  1. The labor market is slowing
  2. US Consumer Debt continues to rise primarily driven by mortgage debt.
  3. US Savings rate is now at an all time low
    1. 3.6% in February 2024
    2. 3.2% in March 2024

# GENERAL COMMENTS

1. HB126 has taken real dollars from commercial tax collections which has slowed real estate revenue growth for BBHCSD. ***This has slowed our revenue growth.***
2. New labor contracts have been factored into this presentation (BEA and BOSS)
3. BBHCSD continues to monitor its financial situation in a very unique economic environment.
4. Healthcare projections continue to be a topic of discussion among Treasurers.
5. This forecast does indicate FY28 with less than 90 days of cash on hand, thus for planning purposes a possible levy model is included.
