

K-5 curriculum for school counselors

CharacterStrong offers curricula designed for various educational levels, from elementary to high school, and focus on building essential skills like empathy, resilience, and teamwork. The curriculum integrates practical activities and lessons that promote positive school culture and student well-being. The elementary curriculum emphasizes foundational skills through interactive and age-appropriate activities.

CharacterStrong also provides professional development resources for educators to effectively implement these programs. Their training sessions and workshops aim to enhance teachers' abilities to foster a supportive learning environment. Overall, CharacterStrong's comprehensive approach supports the holistic development of students, promoting both academic success and personal growth.

The matrix:

BE KIND Social skills and conflict resolution	BE STRONG Executive functioning: focusing, organizing, goal setting	BE WELL Wellness strategies: emotional regulation
RESPECT	RESPONSIBILITY	GRATITUDE
EMPATHY	PERSEVERANCE	HONESTY
COOPERATION	COURAGE	CREATIVITY

Like all curricula adopted in BBHCSD, a rigorous and exhaustive process was followed. The process to review various curricula for K-5 school counselors began in January.

After a thorough search of existing curricula for elementary school counselors, five programs were selected for greater scrutiny and presentations were given from each of the companies in April:

- [Character Counts!](#)
- [Second Step](#)
- [7 Mindsets](#)
- [Character Strong](#)
- [Growing Early Mindsets](#)

CharacterStrong was selected, is still available for community review, and is now seeking Board approval.
