

Here's a new option for community fundraising, one that doesn't require the sale of products and has no costs, labor, or liability involved.

It's a **Fill The Bins** clothing and shoes recycling initiative! Families drop off their surplus of men, women, and children's clothing, shoes, and accessories. The school earns money for each pound of recyclables collected. Then, the textiles are repurposed, recycled, or reused.

Clothes Bin benefits from over 35+ years of experience in the textile recycling industry and has prevented millions of pounds of clothes, shoes, and textiles from entering our landfills. We also have 500+ schools and communities nationwide participating in the textile recycling program.

The **Fill The Bins** earth-friendly initiative is a no-cost program that reinforces important lessons about reusing and recycling. The **Fill The Bins** textile recycling initiative is a great way for any organization to generate additional monies.

Please get in touch with me at your earliest convenience to find out how much money your community can earn for recycling unwanted clothing, shoes, and textiles.
