OUR CULTURE

The BBHCSD will encourage all to Bee Your Best, Bee The Future, and Bee One Community, and will accomplish this by building safety, sharing vulnerability, and establishing a shared purpose with the values above.

Together, we will ***Protect the Banner of the BBHCSD.***

Instructional & Curricular Philosophy

The curriculum and instruction of the Brecksville Broadview Heights City School District will provide an educational program to assist all students to realize their potential to make a positive impact as contributing members of a global society. Both the curriculum and the instructional process reflect that each student is a unique individual and learner.

Students are prepared for their futures through strong curriculum and instructional practices instilling the competencies of Emotionally-Prepared, Future-Ready, Globally-Responsible, and Self-Reliant. In addition, all learners understand the outcomes of Always Improving, Stronger Together, and Leave a Legacy stated in the district's culture playbook. Additionally, the curriculum and instruction aims to achieve with all learners the Culture Playbook outcomes Always Improving, Stronger Together and Leave a Legacy.

Students are at the center of all we do in the Brecksville Broadview Heights City School District. We practice standards-driven curriculum and instruction in all content areas:

- We anchor all learning in Ohio's learning standards.
- We utilize data-driven, evidence-based instruction and decision making.
- We utilize assessments directly aligned to Ohio's learning standards to collect data on student growth and mastery, adjusting and adapting instruction to meet the learning needs of all students.
- We foster a culture of continuous growth in learning for both students and staff.
- We believe that learning is a lifelong pursuit and that everyone has the capacity to grow and continually learn.
- We provide supportive learning environments that encourage active engagement, curiosity, exploration, and rigorous levels of learning.

EDUCATE.
EMPOWER.
ENGAGE.

Advanced Placement Human Geography

District Overview of Content

In AP Human Geography, students will learn about the ways humans interact with the Earth's surface and how those interactions shape societies and environments. They'll explore patterns like where people live, how communities are organized, and the environmental impacts of human activities. Students will use tools and concepts geographers use, such as mapping and landscape analysis, to better understand these patterns.

The course is similar to a college-level human or cultural geography class and focuses on big themes rather than specific regions. Topics include economic geography (how economies shape and are shaped by locations), cultural geography (how cultures spread and influence each other), political geography (how political boundaries and governments affect people and spaces), and urban geography (how cities develop and function).

The course takes a problem-solving approach, encouraging students to look at real-world examples from around the globe. They'll examine historical and current issues like globalization (how cultures and economies are becoming more connected), colonialism (how past colonization still affects today's world), and human-environment relationships. These case studies help students understand complex global patterns and the world they live in today.

The three big ideas that serve as the foundation of the course are:

- Patterns and spatial organization
- Impacts and interactions
- Spatial process and societal change

The AP Human Geography overview is paraphrased from the course and exam description
