Instructional & Curricular Philosophy

The curriculum and instruction of the Brecksville Broadview Heights City School District will provide an educational program to assist all students to realize their potential to make a positive impact as contributing members of a global society. Both the curriculum and the instructional process reflect that each student is a unique individual and learner.

Students are prepared for their futures through strong curriculum and instructional practices instilling the competencies of Emotionally-Prepared, Future-Ready, Globally-Responsible, and Self-Reliant. In addition, all learners understand the outcomes of Always Improving, Stronger Together, and Leave a Legacy stated in the district's culture playbook. Additionally, the curriculum and instruction aims to achieve with all learners the Culture Playbook outcomes Always Improving, Stronger Together and Leave a Legacy.

Students are at the center of all we do in the Brecksville Broadview Heights City School District. We practice standards-driven curriculum and instruction in all content areas:

- We anchor all learning in Ohio's learning standards.
- We utilize data-driven, evidence-based instruction and decision making.
- We utilize assessments directly aligned to Ohio's learning standards to collect data on student growth and mastery, adjusting and adapting instruction to meet the learning needs of all students.
- We foster a culture of continuous growth in learning for both students and staff.
- We believe that learning is a lifelong pursuit and that everyone has the capacity to grow and continually learn.
- We provide supportive learning environments that encourage active engagement, curiosity, exploration, and rigorous levels of learning.

OUR MISSION

The BBHCSD exists to rigorously educate our students to the highest standards, to boldly empower our school family with exciting learning experiences, and to collaboratively engage our community to cultivate productive future citizens of a global society.

Teammates in Creativity

District Overview of Content

Ohio's Visual Arts standards provide a framework that allows all students to understand and develop skills to create and critique visual art.

Through discovery, inquiry, analysis and application, the standards promote:

- critical thinking,
- personal expression and creativity,
- collaboration and communication skills, and interdisciplinary connections,
- use of technology as a tool for artistic expression,
- appreciation for diversity of visual art,
- understanding the value and role of visual art in society.

A high-quality visual art education provides a unique set of learning experiences for students. The following illustrates the guiding principles of a visual art curriculum.

- Exercise and develop creativity as an essential intellectual activity.
- Create and collaborate with peers to develop leadership and team-building skills.
- Engage with visual art in a thoughtful, knowledgeable and ethically responsible way.
- Practice self-discipline, problem-solving and innovation skills through varied art experiences.

Specific Grade Level Overview

Teammates in Creativity is an inclusive art course where neurotypical students partner one-on-one with students with exceptionalities to create artwork in a supportive and creative environment. Students collaborate on art projects, fostering social skills, building positive relationships, and enhancing their art awareness. The emphasis is placed on the value of the creative process, where both students gain insight into different perspectives, improve communication skills, and learn that the journey of creation is just as important as the final product. Students will leave with enriched experiences, stronger social interactions, and a deeper understanding of art as a medium for empowerment and connection.

Materials

Various artmaking materials

Assessments

Formative Assessment	
Peer Collaboration Journals	Students will maintain a reflective journal that documents their experiences collaborating with peers with exceptionalities. This journal will include insights on communication strategies, challenges encountered, and skills developed during the collaboration process. Journals will be reviewed bi-weekly to monitor progress and growth.
Class Participation and Engagement	Active monitoring of student participation will occur during group activities and discussions. This assessment focuses on each student's level of engagement, contributions to conversations, and their readiness to support their peers. Continuous observation throughout the course will provide insights into each student's collaborative efforts.
Summative Assessment	
Partner Art Project Presentation	Students will present their partner's art project created during the semester. This presentation will involve curating a personalized display of the artwork, along with articulating their partner's creative process, artistic choices, and the meaning behind the work. This activity encourages students to appreciate diverse perspectives while enhancing their public speaking skills.
Self-Assessment and Reflection	At the end of the course, students will complete a self-assessment rubric that evaluates their personal growth in creativity, collaboration, and critical thinking. This reflective practice allows students to assess their development and identify areas for continued improvement.

Content Standards

Ohio's Learning Standards for Fine Arts: Visual Arts

Ohio SEL Standards Alignment for Typical Students (Peer Models)	
Social Awareness	Peer models will learn to recognize and respect the perspectives and feelings of others, particularly those with exceptionalities.
Relationship Skills	Students will strengthen their ability to build relationships, communicate effectively, and resolve conflicts as they work with their peers on collaborative art projects.

Responsible Decision-Making	Peer models will make responsible decisions, considering the well-being of others and evaluating the impact of their creative and social choices.
Ohio Visual Art Standards Alignment for Students with Exceptionalities	
Visual Art Creation	Students with exceptionalities will engage in exploration and experimentation, generating original artworks that express their thoughts and feelings. They will evaluate sources, explore artistic problems, and create artwork in an ethical and inclusive way.
Visual Art Communication	This course provides students with exceptionalities opportunities to express themselves visually and verbally. They will improve their vocabulary and participate in critiques, which will help develop both their communication and art criticism skills.
Visual Art Collaboration	Collaborating with typical students, students with exceptionalities will work on integrating design elements into their art while reflecting on their progress through self-assessment. This builds their teamwork skills and artistic knowledge.
Understanding and Applying Cultural Contexts	Through exposure to diverse perspectives, students with exceptionalities will learn to appreciate and reflect on different cultural contexts. This promotes empathy, social responsibility, and cultural awareness.
Visual Art Critique	Participating in critique sessions will help students with exceptionalities think critically about their work and others' art. They will explore different artistic solutions, sharpening their problem-solving abilities.
Art History and Appreciation	Students with exceptionalities will explore the history of art and its role in society. This knowledge will help them understand the contributions of various artists and appreciate art's relevance in their everyday lives.
Personal Expression through Art	This course encourages students with exceptionalities to find their artistic voices, building confidence and a sense of identity. They will work towards creating a portfolio of their best pieces, demonstrating their personal growth and artistic skill.
