

Greenheart Exchange High School Permission Form

Dear School Administrator:

A family living in your area would like to host an international exchange student, sponsored by Greenheart Exchange, for the upcoming academic year or semester. Our Local Coordinator has provided you the following pertinent information concerning the student: application form, medical records and emergency medical release signed by the natural parents or guardians, English proficiency assessment and an English translation of the student's academic records. If you would like more information about the student, our Local Coordinator will be pleased to provide it for you. His or her contact information is below.

Greenheart Exchange is an established organization with highly selective standards for admitting students, and you can be confident that a participant on our program has been closely screened and well-oriented.

Greenheart Exchange bears full responsibility for the well-being of the students on the program, providing them with complete illness and accident insurance, as well as close supervision throughout the year or semester. Greenheart Exchange guarantees the financial support of all program participants throughout their stay in the U.S., as well as their return to their home countries at the completion of the program.

High schools agree, therefore, to provide Greenheart Exchange representatives with course schedules, grades, attendance records and progress reports for those students sponsored by Greenheart Exchange. Schools also agree to permit Greenheart Exchange staff and the Greenheart Exchange Local Coordinator to meet with Greenheart Exchange students as needed during the school day (during free periods, lunch hours, etc.).

The U.S. Department of State has designated Greenheart Exchange's Academic Year and Semester Program an official exchange visitor program. This allows Greenheart Exchange to issue each student a DS-2019 form to enable him or her to obtain a J-1 visa from a U.S. consulate in his or her country. Government regulations require that we receive your written acceptance of the student, and your signature below indicates that the student will be accepted for enrollment in your accredited academic school in a full course of study.

Thank you very much for your consideration.

Maria Pakhomova
Vice President of Compliance and Program Support
Greenheart Exchange
