Section	Administrative Guideline Updates
Title	Copy of USE AND MAINTENANCE OF AUTOMATED EXTERNAL DEFIBRILLATORS
Code	ag8452
Status	Up for Revision
Adopted	July 1, 2008

8452 - **USE AND MAINTENANCE OF AUTOMATED EXTERNAL DEFIBRILLATORS ("AEDs")**

These guidelines are established for use of ~~as guidance to those who are trained and willing to use School District~~ Automated External Defibrillators ("AEDs") ~~that are located in school buildings and at each sports and recreation facility under the Board's control~~ in appropriate emergency medical situations. These guidelines do not create an obligation to use the AEDs nor do they create an expectation that an AED will be available or that a trained employee will be present and/or able to use the AED in the event of a medical emergency. Any individual using a School District AED is subject to the immunities established in R.C. 2305.235 and R.C. 3313.717.

AED SAFETY COORDINATOR

The HCC or designee, **Facilities Manager**, or the Superintendent, will perform the duties of AED "Safety Coordinator." ~~The Safety Coordinator will:~~

- A. ~~Coordinate and supervise CPR and AED program activities;~~
- B. ~~Maintain all records evidencing staff training;~~
- C. ~~Coordinate location and installation of AEDs and develop a map indicating where AEDs are located on school property;~~
- D. ~~Retain all manufacturer's guidelines and oversee AED maintenance;~~
- E. ~~Perform monthly checks of batteries and equipment;~~
- F. ~~Replace single-use equipment promptly after each AED use as well as replace equipment that has expired;~~
- G. ~~Share the Board's emergency action plan and the map of where AEDs are located with local emergency management services ("EMS").~~

MEDICAL AUTHORIZATION FOR THE AED PROGRAM

~~Prior to authorizing use of the AEDs in the School District, the Safety Coordinator will secure a prescription for such use from an appropriate medical practitioner, as identified below. In order to maintain the prescription, the Safety Coordinator will assure that the serial numbers from all School District AEDs are forwarded to the identified medical practitioner along with all initial and on-going staff training records.~~

~~The Safety Coordinator will seek a case review by the prescribing medical practitioner in the event that a School District AED is used.~~

STAFF TRAINING ON AEDs AND CPR ~~TRAINING OF "EXPECTED USERS"~~

~~Individuals in the following positions are hereby identified as "expected users" of School District AEDs:~~

- A. ~~all School District administrators;~~
- B. ~~all school nurses;~~

- C. ~~athletic director(s);~~
- D. ~~all athletic trainers;~~
- E. ~~all physical education teachers;~~
- F. ~~all members of the coaching staff of an interscholastic athletic team;~~
- G. ~~additional staff as deemed appropriate by each building administrator.~~

~~Individuals who are presently employed under a regular or supplemental contract for any of these positions must complete a training course in the use of the AED as well as CPR as described below. Any of these individuals who is able to produce evidence of completion of the requisite training within the two (2) years prior to the adoption of these guidelines is not required to undergo such training again. Any individual who is awarded a contract or supplemental contract for any of these positions subsequent to the adoption of these guidelines must seek appropriate training within a reasonable period of time.~~

~~The Safety Coordinator will contact the Brecksville and/or Broadview Heights Fire Department to schedule and coordinate training in a program consistent with the training protocols established by the National Center for Early Defibrillation (www.early_defib.org) and conducted by an organization listed by the National Center. The Safety Coordinator will maintain all records evidencing training. All training will be in compliance with State and/or Federal law.~~

~~All expected users must annually complete an AED-CPR skill proficiency demonstration every two (2) years. Each individual's annual performance will be reviewed in cooperation with the Brecksville Broadview Heights Fire Department. The Safety Coordinator will arrange this annual review with the Brecksville Broadview Heights Fire Department as well as remediation as appropriate.~~

In accordance with State law, the Board shall require teachers, nurses, counselors, school psychologists, principals and other administrative employees, coaches, athletic trainers, any other person who supervises interscholastic athletics, and any other individuals identified by the Board to successfully complete an appropriate training course in the use of AEDs.

To fulfill this requirement, the Board will use a training that is either an approved program developed by the American Heart Association or American Red Cross, or a program that is nationally recognized and based on the most current national, evidence-based emergency cardiovascular care guidelines for CPR and use of an AED. The training will be incorporated into in-service training in child abuse, substance abuse, and violence prevention that is required upon initial employment and every five (5) years thereafter.

Student activity permit holders who direct, supervise, or coach a student activity program that involves athletics, routine or regular physical activity, or health and safety considerations must also complete cardiopulmonary resuscitation and sudden cardiac arrest training as required by State regulations. Any individual who is awarded a contract or supplemental contract subsequent to the adoption of these guidelines must seek appropriate training within a reasonable period of time.

STUDENT TRAINING

Students in grades nine (9) through twelve (12) will also receive instruction in CPR and the use of an AED. The instruction shall include the psychomotor skills necessary to perform cardiopulmonary resuscitation of an AED. The training shall either be an approved program developed by the American Heart Association or American Red Cross, or a program that is nationally recognized and based on the most current national, evidence-based emergency cardiovascular care guidelines for CPR and use of an AED. Parents may submit a written request that their student be excused from the training. If it is determined that a student with a disability is not capable of performing the psychomotor skills required to perform CPR and use an AED as indicated in their Individualized Education Plan ("IEP"), they will not be required to complete the training.

AED MAINTENANCES

~~Student activity permit holders who direct, supervise, or coach a student activity program that involves athletics, routine or regular physical activity, or health and safety considerations must also complete cardiopulmonary resuscitation and sudden cardiac arrest training as required by State regulations. Any individual who is awarded a contract or supplemental contract subsequent to the adoption of these guidelines must seek appropriate training within a reasonable period of time~~

All School District AEDs must be maintained and tested according to the manufacturer's guidelines.

The Safety Coordinator will retain all manufacturer's guidelines ~~online in his/her office~~ along with any additional specifications or technical information for each approved AED model made available for use in the School District.

The Safety Coordinator will oversee the performance of regular maintenance of School District AEDs in accordance with the intervals established by the manufacturer. The Safety Coordinator or a designee will perform monthly checks of the AED defibrillator pads and batteries to assure compliance with expiration dates. The Safety Coordinator will re-order replacement supplies for the AED upon determining that existing supplies will expire within the ensuing two (2) months.

The Safety Coordinator/designee will maintain documentation of a weekly checklist to document the proper maintenance of the AEDs as well as monthly inspections.

Following the use of an AED, the Safety Coordinator must replace all single use items associated with the AED as quickly as possible.

AED LOCATIONS

Each Safety Coordinator, in consultation with the Building Principal, will identify a location for the storage of any AED in each school building. The location will be in a place that is obviously visible and accessible to expected users in the event of an emergency and which is accessible outside of normal school hours. Upon installation, the Safety Coordinator will provide a copy of the Board's emergency action plan along with a map of where AEDs are located to local emergency management services. The Safety Coordinator will also ensure that the maps are shared with or accessible to staff, students, guests, volunteers, and community members so that AEDs can be located quickly in an emergency. Each building principal must identify a location for the storage of any AED assigned to his/her school building. The location for storage of an AED should be made in consultation with the Safety Coordinator and must be a location which is obviously visible to expected users in the event of an emergency and which is accessible outside of normal school hours. Upon installation, the Safety Coordinator must notify all area emergency medical services of the locations of all AEDs.

If an AED is made available for use outside of regular school hours at a site other than a normal fixed location, such as at an athletic contest, then the AED may be transported by any expected user to such a location. The individual responsible for transport must inform all other expected users regarding the location of the transported AED upon arrival.

EMERGENCY ACTION PLAN FOR USE OF AN AED

The Board adopts an emergency action plan developed by the American Heart Association. The Safety Coordinator will ensure that a copy of the plan is available online and at every building where an AED is located.

[END OF OPTIONS]

Prior to use of an AED, the trained expected AED user should assess the scene of the medical emergency for safety. The expected user should make the scene of the emergency as safe as possible prior to use of the AED, including placing the person on a hard surface away from standing water. Expected users are not expected to place themselves at risk in order to provide aid to others.

The AED should be attached only to victims who are unresponsive, not breathing normally.

Procedures For Use During School Hours

- A. After assessing the symptoms described above, a responsible adult shall alert the main office either by calling the main office on any school phone, or by sending a runner to the building principal. The responsible adult shall provide the main office with information regarding the location of the medical emergency, the symptoms of the individual, and detailing any safety issues related to the scene.
- B. The principal or a designee shall immediately contact emergency medical services by calling 911, and shall contact and dispatch a trained expected AED user from the school building to the location of the emergency.
- C. The principal or designee shall retrieve the AED for delivery to the scene.
- D. Upon arrival, the trained expected AED user must assess the symptoms of the person and assess whether the person meets the criteria for use of the AED.
- E. The trained expected AED user should administer CPR or the AED in accordance with training until arrival of emergency medical services personnel.
- F. The trained expected AED user, in consultation with the building principal, must complete a School District incident report, including the names of the responding emergency medical services personnel and any relevant facts relating to the incident. The incident report will be retained in the files of the School District.
- G. After use, the AED should remain off unless needed for an additional emergency.

Procedures For Use Outside Of Regular School Hours

- A. After assessing the symptoms described above, a responsible adult shall alert a trained expected AED user, including any member of a coaching staff or the Safety Coordinator. The responsible adult shall provide the trained expected AED user with information regarding the location of the medical emergency, the symptoms of the individual and detailing any safety issues related to the scene.
- B. The trained expected AED user shall immediately designate another responsible individual to contact emergency medical services by calling 911, and shall immediately respond to the location of the emergency.
- C. The trained expected AED user shall retrieve or designate another responsible individual to retrieve the AED for delivery to the scene.
- D. Upon arrival, the trained expected AED user must assess the symptoms of the person and assess whether the person meets the criteria for use of the AED.
- E. The trained expected AED user should administer CPR or the AED in accordance with training until arrival of emergency medical services personnel.
- F. The trained expected AED user, in consultation with the building principal, must complete a School District incident report, including the names of the responding emergency medical services personnel and any relevant facts related to the incident. The incident report will be retained in the files of the School District.
- G. After use the fire department should inspect the AED.

COLLECTION OF DATA FOLLOWING THE USE OF AN AED

Immediately following a medical emergency and the use of an AED, the trained expected AED user must report the details of the incident to his/her building principal and the Safety Coordinator. Thereafter, the Safety Coordinator will contact the prescribing medical practitioner for the purpose of conducting a case review.

PROCEDURES FOLLOWING A CRITICAL EVENT

Following an incident involving the use of an AED, the Safety Coordinator will convene an informal stress debriefing for all individuals involved in the incident. The Safety Coordinator may seek intervention from the Brecksville Broadview Heights Fire Department if determined appropriate.

Within a reasonable period of time after an incident involving the use of an AED, the Safety Coordinator must convene a meeting of all individuals involved in the incident to review the procedures as set forth herein and to make recommendations for any amendments to these guidelines.
