Brecksville-Broadview Heights City School District – Cuyahoga County
Notes to the Five-Year Forecast
General Fund Only
May 28, 2025

Introduction to the Five Year Forecast

A forecast is a snapshot of today based on historical trends, what we know, and future assumptions. That snapshot, however, will be adjusted because the further into the future the forecast extends, the more likely it is that the projections will deviate from experience. Various events will ultimately impact the latter years of the forecast, such as state budgets (adopted every two years), tax levies (new/renewal), salary increases, enrollment variances, or businesses moving in or out of the district. The five-year forecast is a crucial management tool and must be updated periodically. The five-year forecast enables district management teams to examine future years' projections and identify when challenges will arise. This helps district management to be proactive in meeting those challenges. School districts are encouraged to update their forecasts with the Ohio Department of Education and Workforce (ODEW) when events materially change their forecast or, at a minimum when required under the statute.

In a financial forecast, the numbers only tell a small part of the story. For the numbers to be meaningful, the reader must review and consider the Assumptions to the Financial Forecast before drawing conclusions or using the data as a basis for other calculations. The assumptions are especially important to understanding the rationale of the numbers, particularly when a significant increase or decrease is reflected.

Here are three (3) essential purposes or objectives of the five-year forecast:

- (1) To engage the local board of education and the community in long-range planning and discussions of financial issues facing the school district.
- (2) To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. §5705.412, commonly known as the "412 certificate".
- (3) To provide a method for the Ohio Department of Education and Workforce, and the Auditor of State to identify school districts with potential financial problems.

O.R.C. §5705.391 and O.A.C. 3301-92-04 require a Board of Education (BOE) to file a five-year financial forecast by November 30, and May 31, each fiscal year (July 1 to June 30). The five-year forecast includes three years of actual and five years of projected general fund revenues and expenditures. The first year of the fiscal forecast is considered the baseline year. Our forecast is updated to reflect the most current economic data available for the updated May 2025 filing.

May 2025 Updates:

Revenues FY25

The overview of revenues shows that we are substantially on target with original estimates at this point in the year. Total General Fund revenues (line 1.07) are estimated to be \$61 thousand or 0.11% lower than the November forecasted amount of \$56.38 million.

Line 1.01 and 1.02 - Property tax revenues represent our most significant source of revenues at 76.3% and are estimated to be \$42.99 million, which is \$452 thousand lower for FY25 than the original November estimate of \$43.44 million.

Line 1.035 and 1.04 - State Aid continues the implementation of the Fair School Funding Plan (FSFP), which has caused significant changes to the way our state revenues are calculated. We are estimating our state aid to be \$5.5 million, which is \$83 thousand lower than the original estimate for FY25.

Line 1.06 - Other revenues are up \$399 thousand over original estimates, primarily due to interest received by the district, which are somewhat unpredictable from year to year.

All areas of revenue are tracking as anticipated for FY25 based on our best information at this time.

Expenditures FY25

Total General Fund expenditures (line 4.5) are estimated to be \$56.56 million for FY25, which is \$721 thousand lower than the original estimate of \$57.28 million in the November forecast, which is roughly on target with initial estimates.

All other areas of expenses are expected to remain on target with original projections for the year.

Unreserved Ending Cash Balance

With revenues decreasing from estimates and expenditures ending primarily on target, our ending unreserved cash balance June 30, 2025, is anticipated to be roughly \$25.99 million. The ending unreserved cash balance on Line 15.010 of the forecast is anticipated to be a positive accumulative balance through FY2029 if assumptions we have made for property tax collections, state aid in future state budgets, and expenditure assumptions remain close to our estimates.

Forecast Risks and Uncertainty:

A five-year financial forecast has risks and uncertainty not only due to economic conditions but also due to state legislative changes that will occur in the spring of 2025 and 2027 due to deliberation of the following two (2) state biennium budgets for FY26-27 and FY28-29, both of which affect this five-year forecast. We have estimated revenues and expenses based on the best data available and the laws currently in effect. The items below give a short description of the current issues and how they may affect our forecast in the long term:

- I. Property tax collections are the largest single revenue source for the school system. The housing market in our district is stable and growing. We project growth in appraised values every three (3) years and new construction growth with modest increases in local taxes. Total local revenues, predominately local taxes, equate to 82.5% of the district's resources. Our tax collections in the spring and fall settlements showed average collection trends. We believe there is a low risk that local collections would fall below projections throughout the forecast.
- II. Cuyahoga County experienced a reappraisal update in the 2021 tax year to be collected in FY22. The 2021 update increased overall assessed values by \$153.7 million or an increase of 13.8%. A reappraisal occurred for tax year 2024 for collection in FY25. The values increased for Class I and II property by \$273.59 million for an overall increase of 21.46%. There is however always a minor risk that the district could sustain a reduction in values in the next appraisal update but we do not anticipate that at this time.
- III. SB271 passed in 2024 that created a Joint Committee on Property Taxation and Reform. This action was in response to the historic property valuation increases. The committee's mission was to review Ohio's property tax system and to make recommendations to the General Assembly on property taxation. The committee released their report to the General Assembly on January 2, 2025. The report outlined twenty-one (21) recommendations on actions that could be taken to restrict local tax growth for Ohio school districts.

As a result of the numerous recommendations in the report there are currently 14 pending pieces of legislation in the Ohio Legislature that seeks to limit growth of local property taxes in several different ways. The most egregious is HB96 which could impact every district in the state of Ohio. HB96 seeks

to limit school district ending carry over cash balances to 30% of their prior years expenditures and to allow county budget commissions to suspend voter approved property tax levies and the 20-mill floor in order to reduce district reserves to the 30% target. HB96 has several severe consequences for school districts in terms of financial stability, loss of local control and will likely result in increased levy requests to district taxpayers. It is unclear at the time of this forecast whether HB96 will continue on through the Ohio Senate and be signed into law July 1, 2025. The district will be watching carefully for the final outcome of HB96 and several other legislative proposals that would limit property tax growth. Several of these proposals in addition to HB96 could be a very significant risk to future local tax growth for our district. We will update the forecast when factual data is available.

- IV. The state budget represented 17.5% of district revenues, which means it is a significant risk to the revenue. The future risk comes in FY26 and beyond if the state does not fund the last two (2) years of the Fair School Funding Plan in the FY26-27 biennium budget. In this forecast, there are two unknown future State Biennium Budgets covering FY26-27 and FY28-29.

The state legislature has shown little interest in equitably funding the current formula. The governors proposed budget recommendation in HB96 dated February 3, 2025, reduced funding for public school by -\$103.5 million over FY26-27. The legislative process will continue with uncertainty through June 30, 2025, which is after the forecast must be approved. This is an area of elevated risk to district funding long-range through FY29. We have projected our state funding in FY25 based on of HB33 our current state budget which expires June 30, 2025. We will adjust the forecast for state aide in future years as we have reliable data to make an informed decision.

- V. HB33, the current state budget, continues to phase in what has been referred to as the Fair School Funding Plan (FSFP) for FY24 and FY25. FY25 reflects 66.67% of the implementation cost at year four of a six-year phase-in plan, which increases by 16.66% each year. FY25 will result in 66.67% funding of (FSFP), however, the final two years of the phase-in are not guaranteed and are dependent on legislative actions for the FY26 and FY27 state biennium budget, which as of this forecast do not appear favorable. We have used the most recent simulations published by the Department of Education and Workforce for our forecasted revenues in FY25.
- VI. HB33 directly pays costs associated with open enrollment, community and STEM schools, and all scholarships, including EdChoice Scholarships. These costs are no longer deducted from our state aid. However, education option programs such as College Credit Plus, Excess Costs and various tuitions continue to be removed from state aid, increasing costs to the district. Expansion or creation of programs not directly paid by the state of Ohio can expose the district to new expenditures currently outside the forecast. We closely monitor any new threats to our state aid and increased costs as new proposed laws are introduced in the legislature.
- VII. Labor relations in our district have been amicable with all parties working for the best interest of students and realizing the resource challenges we face. We believe as we move forward our positive working relationship will continue and will only grow stronger.

The significant lines of reference for the forecast are noted below in the headings to make it easier to relate the assumptions made for the forecast item and refer back to the forecast. It should be of assistance to the reader to review the assumptions noted below in understanding the overall financial forecast for our district. If you would like further information please feel free to contact Craig Yaniglos, Treasurer of Brecksville-Broadview Heights City School District.

General Fund Revenue, Expenditures and Ending Cash Balance Actual FY22-24 and Estimated FY25-29
 The graph captures in one snapshot the operating scenario facing the district over the next few years.

Revenue Assumptions
Estimated General Fund Operating Revenues FY25

Real Estate Value Assumptions – Line #1.010

Property Values are established each year by the County Auditor based on new construction, demolitions, BOR/BTA activity and complete reappraisal or updated values. Cuyahoga County experienced a reappraisal update in Tax Year 2021 for collection in 2022. We realized an overall increase in our total tax base of 13.8% due to inflation and new construction.

A full reappraisal occurred for tax year 2024 in Cuyahoga County and we estimate a 23.85% increase in residential and 6.02% in commercial property values. Residential/Agricultural and Commercial/Industrial values are estimated to increase by \$273.59 million or 21.46% overall.

Public Utility Personal Property (PUPP) values increased by \$3.4 million in Tax Year 2024. We expect our values to continue to grow by \$500,000 each year of the forecast.

We have been conservative with any future value increases for reappraisal or updates due to uncertainty over legislative actions that may take place in the spring of 2025 that limits property tax growth.

ESTIMATED ASSESSED VALUE (AV) BY COLLECTION YEAR

	Actual	Actual	Actual	Estimated	Estimated
	TAX YEAR 2024	TAX YEAR 2025	TAX YEAR 2026	TAX YEAR 2027	TAX YEAR 2028
Classification	COLLECT 2025	COLLECT 2026	COLLECT 2027	COLLECT 2028	COLLECT 2029
Res./Ag.	\$1,334,715,110	\$1,336,365,110	\$1,338,015,110	\$1,406,565,866	\$1,408,215,866

Total Assessed Value	<u>\$1,587,418,360</u>	<u>\$1,591,368,360</u>	<u>\$1,595,318,360</u>	<u>\$1,670,511,214</u>	<u>\$1,674,461,214</u>

Tax Rate Assumptions

The county auditor sets tax rates for each levy voted on to provide tax revenues for the school district. Ohio law provides for “reduction factors” of all voted property tax levies to adjust the millage rates lower for the levy to not increase from inflation of property values for the taxes received by a district to that of the actual amount of the levy at the time of the election. The reduction factors are applied separately to Residential/Agriculture (Class I) and Commercial/Industrial (Class II) resulting in different effective millage rates. The district-voted rate for all general fund levies is 72.44 mills while the Class I effective millage rate is 24.06 mills and the Class II effective millage rate is 36.3 mills. The Ohio law has a provision that the reduction factors cannot lower the total millage rate for each class less than 20 mills (excluding emergency and substitute emergency levies), which includes both the voted and the non-voted millage rates; this is called the “20-Mill Floor”. Currently, our district is not on the floor for either Class I or Class II.

ESTIMATED REAL ESTATE TAX (Line #1.010)

Est. Real Estate Taxes	<u>\$40,114,954</u>	<u>\$40,585,349</u>	<u>\$40,881,417</u>	<u>\$41,175,281</u>	<u>\$41,442,424</u>
Total Line #1.01 Real Estate Taxes	<u>\$40,114,954</u>	<u>\$40,585,349</u>	<u>\$40,881,417</u>	<u>\$41,175,281</u>	<u>\$41,442,424</u>

Property tax levies are estimated to be collected at 95% of the annual amount. This allows 5% delinquency factor. In general, 54.10% of the Res/Ag and Comm/Ind property taxes are expected to be collected in the February tax settlement and 45.90% collected in the August tax settlement.

Public Utility tax settlements (PUPP taxes) are estimated to be received 57% in February and 43% in August settlement from the County Auditor and are noted in Line #1.02 totals below.

Estimated Public Utility Personal Property Tax (PUPP) – Line #1.020

The amounts below are public utility tangible personal property (PUPP) tax payments from public utilities. The values for PUPP are noted in the table above, which was \$40.11 million in assessed values in 2024 and is collected at the district’s full voted millage rate. Collections are typically 57% in February and 43% in August, along with the real estate settlements from the county auditor. The values in 2024 rose by 21.14% or \$3.4 million and are expected to grow by \$500 million each year of the forecast.

New Tax Levies – Line #13.030

The district is currently forecasting a 4.5-mill operating levy that would be placed on the ballot in 2027, with collections beginning in 2028. However, ongoing discussions around property tax reform and changes to state funding at the statehouse are creating uncertainty. As a result, the district is considering several options, including the possibility of introducing a levy that would begin collections a year earlier. The proposed millage could range from 3.5 to 4.9 mills, depending on economic conditions and legislative developments. The district expects to have a clearer understanding of the situation after July.

State Foundation Revenue Estimates – Lines #1.035, 1.040 and 1.045

Current State Funding Model per HB33 through June 30, 2025

A) Unrestricted State Foundation Revenue– Line #1.035

HB33, the current state budget, continued the Fair School Funding Plan for FY24 and FY25, which funds students where they are educated rather than where they live. We have projected FY25 funding based on the most recent 2025 foundation settlement and funding factors.

Our district is currently a guarantee district in FY25 and is expected to continue to be on the guarantee in FY26-FY29 on the new Fair School Funding Plan (FSFP).

For a detailed overview of how foundation funding is calculated please visit the Ohio Department of Education and Workforce at: <https://education.ohio.gov/Topics/Finance-and-Funding/Overview-of-School-Funding>.

State Funding Phase-In FY25 and Guarantees

The Fair School Funding Plan was presented as a six (6) year phase-in plan, the state legislature approved the first two (2) years of the funding plan in HB110 and extended the plan in HB33 for FY24 and FY25. The FSFP does not include caps on funding; instead, it consists of a general phase-in percentage for most components of 66.67% in FY25.

The funding formula includes three (3) guarantees: 1) “Formula Transition Aid,” 2) Supplemental Targeted Assistance, and 3) Formula Transition Supplement. The three (3) guarantees in both temporary and permanent law ensure that no district will get fewer funds in FY24 and FY25 than they received in FY21.

Future State Budget Projections beyond FY25:

Our funding status for FY26-29 will depend on unknown two (2) new state budgets. There is no guarantee that the current Fair School Funding Plan will be funded or continued beyond FY25; therefore, our state funding

estimates are reasonable, and we will adjust the forecast when we have authoritative data to work with. For this reason, funding is held constant in the forecast for FY26 through FY29.

Casino Revenue

On November 3, 2009, Ohio voters passed the Ohio casino ballot issue. This issue allowed four (4) casinos to open in Cleveland, Toledo, Columbus, and Cincinnati. Thirty-three percent (33%) of the gross casino revenue will be collected as a tax. School districts will receive 34% of the 33% of Gross Casino Revenue that will be paid into a student fund at the state level. These funds will be distributed to school districts on the 31st of January and August each year, beginning for the first time on January 31, 2013.

The casino revenue has recovered from the pandemic from closing the casinos in 2020. Total funding in FY24 was \$114.18 million or \$65.44 per pupil. In FY25, the funding totaled \$114.30 million or \$65.99 per pupil. We expect the Casino revenues to have resumed their historical growth rate and are assuming a 2.0% annual growth rate for the remainder of the forecast.

<u>Source</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>

B) Restricted State Revenues – Line # 1.040

HB33 has continued Disadvantaged Pupil Impact Aid (formerly Economic Disadvantaged funding) and Career Technical funding. In addition, new restricted funds have been added under “Restricted Categorical Aid” for Gifted, English Learners (ESL), and Student Wellness. The district has elected to also post Catastrophic Aid for special education as restricted revenues. We have estimated revenues for these new restricted funding lines using current October funding factors. The amount of DPIA is limited to a 66.67% in FY25. We have flat-lined funding at FY25 levels for FY26-FY29 due to uncertainty on continued funding of the current funding formula.

HB33 set aside funds state-wide to subsidize the Science of Reading initiative. The district will be reimbursed for teacher in-service and associated fringe benefits upon proof of training and certified reimbursement request. The district is required to maintain documentation for how funds were spent for any subsidy received.

Total State Foundation Revenue	<u>\$5,546,328</u>	<u>\$5,401,158</u>	<u>\$5,406,061</u>	<u>\$5,411,074</u>	<u>\$5,416,196</u>

State Share of Local Property Tax – Line #1.050

a) Rollback and Homestead Reimbursement

Rollback funds are reimbursements paid to the district from Ohio for tax credits given owner occupied residences equaling 12.5% of the gross property taxes charged residential taxpayers on tax levies passed prior to September 29, 2013. HB59 eliminated the 10% and 2.5% rollback on new levies approved after September 29, 2013.

Homestead Exemptions are credits paid to the district from the state of Ohio for qualified elderly and disabled. In 2007, HB119 expanded the Homestead Exemption for all seniors 65 years of age or older or who are disabled regardless of income. Effective September 29, 2013, HB59 changed the requirement for Homestead Exemptions. Individual taxpayers who do not currently have their Homestead Exemption approved or those who do not get a new application approved for tax year 2013, and who become eligible thereafter will only receive a Homestead Exemption if they meet the income qualifications. Taxpayers who had their Homestead Exemption as of September 29, 2013 will not lose it going forward and will not have to meet the new income qualification. This will generally reduce homestead reimbursements to the district over time, and as with the rollback reimbursements above, the state is increasing the tax burden on our local taxpayers.

Summary of State Tax Reimbursement – Line #1.050

<u>Source</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>

Other Local Revenues – Line #1.060

All other local revenue encompasses any type of revenue that does not fit into the above lines. The main sources of revenue in this area have been open enrollment, tuition for court placed students, interest, student fees, Medicaid payments and general rental fees.

Interest income is based on the district's cash balances and increased interest rates due to the Federal Reserve raising rates to curb inflation. The Federal Reserve Bank cut interest rates by 50 basis point in September 2024. While interest income in FY25 should remain steady due to laddered investment strategies, the rate cuts will begin to have an impact on earnings in FY26 and future years. We will continue to monitor the investments for the district. All other revenues are expected to continue on historical trends.

The district has entered into a Tax Increment Financing (TIF) Agreement. The revenue is expected to continue to rise over time.

<u>Source</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>

Short-Term Borrowing – Lines #2.010 & Line #2.020

There is no short-term borrowing projected in this forecast.

Transfers In / Return of Advances – Line #2.040 & Line #2.050

The district does not have any projected revenue in these lines.

All Other Financial Sources – Line #2.060 & Line #14.010

This funding source is typically a refund of prior year expenditures that is very unpredictable. For future years we are estimating an amount of refunds that align with historical collections. Due to the nature of these collections, this forecast does not assume future collections in this section.

<u>Source</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>
Refund of prior years expenditures	<u>\$35,000</u>	<u>\$35,000</u>	<u>\$35,000</u>	<u>\$35,000</u>	<u>\$35,000</u>

Expenditures Assumptions

The district's leadership team is always looking at ways to improve the education of the students whether it be with changes in staffing, curriculum, or new technology needs. As the administration of the district reviews expenditures, the education of the students is always the main focus for resource utilization.

Estimated General Fund Operating Expenditures for FY25

GENERAL FUND OPERATING EXPENDITURES EST. FY25 \$56,558,049

Personnel Services – Employee's Salaries & Wages – Line #3.010

Negotiations with bargaining unit members resulted in an agreement to include base increases of 2.75% for FY24. The newest agreement includes a base increase of 2.75% in FY25, 2.85% in FY26 and 3.25% in FY27 for certified and a base increase of 2.85% in FY25, 3.0% in FY26 and 3.00% in FY27 for classified. For planning purposes, a 1.75% base increase is planned FY28-FY29.

Employee's Retirement & Insurance Benefits Estimates Line #3.02

This area of the forecast captures all costs associated with benefits and retirement costs, all of which are directly related to the wages paid with the exception of health and life insurance benefits.

A) STRS/SERS

As the law requires, the BOE pays 14% of all employee wages to STRS or SERS. The district is also required to pay SERS Surcharge, an additional employer charge based on the salaries of lower-paid members. It is exclusively used to fund health care.

B) Insurance

The district has an 11.0% increase in premiums estimated for FY25, an estimated 10% increase in FY26 and FY27, and 8% increases estimated for FY28-FY29. By FY27, the district will pay 83.5% instead of the previous rate of 85%.

C) Workers Compensation & Unemployment Compensation

Workers Compensation is expected to remain at about 0.44% of wages in fiscal year FY25. FY26 through FY29 we are showing a slight increase. Unemployment Compensation has been negligible and is anticipated to remain as such as we plan our staffing needs carefully.

D) Medicare

Medicare will continue to increase at the rate of increases in wages and as new employees are hired. Contributions are 1.45% for all new employees to the district on or after April 1, 1986. These amounts are growing at the general growth rate of wages.

E) Other/Tuition

The district reimburses employees for the tuition to further their education to maintain licensure for teaching. The district does not anticipate any increase during the forecast.

Summary of Fringe Benefits – Line #3.02

Purchased Services – Line #3.030

HB110, the previous state budget, impacted Purchased Services as the Ohio Department of Education will began to direct pay these costs to the educating districts for open enrollment, community and STEM schools, and for scholarships granted students to be educated elsewhere, as opposed to deducting these amounts from our state foundation funding. College Credit Pus, excess costs and other tuition costs will continue to draw funds away from the district.

Transfers Out/Advances Out – Line #5.010

This account group includes fund-to-fund transfers and short-term, year-end loans from the General Fund to other funds, which are later repaid once reimbursements are received. A significant transfer is planned at the end of the year to support athletics, as well as a transfer into Fund 035.

Fund 035 is a severance fund used to provide sick leave payouts to retiring teachers. Unlike severance in the private sector, which is often associated with layoffs, this fund specifically covers payments to educators retiring with unused sick leave. A transfer into this fund is planned at the end of the year to ensure it is properly funded for upcoming retirements.

Estimated Encumbrances Line #8.010	<u>\$150,000</u>	<u>\$150,000</u>	<u>\$150,000</u>	<u>\$150,000</u>	<u>\$150,000</u>

Operating Expenditures Actual FY22 through FY24 and Estimated FY25-FY29

As the graph on the following page indicates, we have diligently contained costs due to lower and flat state revenues. We control our expenses while balancing students' academic needs to enable them to excel and perform well on state performance standards.

General Fund Expenditures Actual FY22 Through Projected FY29

Ending Unencumbered Cash Balance “The Bottom-line” – Line #15.010

This amount must not go below \$0 or the district General Fund will violate all Ohio Budgetary Laws. Any multi-year contract which is knowingly signed which results in a negative unencumbered cash balance is a violation of 5705.412, ORC punishable by personal liability of \$10,000. It is recommended by the GFOA and other authoritative sources that a district maintains a minimum of sixty (60) day cash balance.

	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>
Ending Unreserved Cash Balance Line #15.01	<u>\$25,837,636</u>	<u>\$24,449,330</u>	<u>\$21,268,626</u>	<u>\$20,432,263</u>	<u>\$21,785,855</u>

True Cash Days Ending Balance

Another way to look at ending cash is to state it in “True Cash Days”. In other words, how many days could the district operate at year-end if no additional revenues were received? This is the Current Years Ending Cash Balance divided by (Current Years Expenditures/365 days) = the number of days the district could operate without additional resources or a severe resource interruption. The government finance officers association recommends that no less than two (2) months or 60 days of cash is on hand at year-end but could be more depending on each district's complexity and risk factors for revenue collection. This is calculated, including transfers, as this is a predictable funding source for other funds such as capital, athletics, and severance reserves. The district adopted a cash balance policy requiring a minimum of 90 days of true days cash in order to maintain financial stability. The chart below showing true cash days does not include the new levy being considered.

CONCLUSION

Brecksville-Broadview Heights City School District receives 17.5% of it's funding for the district from state dollars which is very beneficial to the overall operations for the education of our students.

District administrations appreciates the supportive Brecksville-Broadview Heights community and are actively planning for the future needs of our students while keeping an eye on the financial stability of the district. The administration is mindful that there are many risks and uncertainties that will need to be considered in future planning.

As you read through the notes and review the forecast, remember that the forecast is based on the information that is known at the time that it is prepared.
